NAAC Re-accredited B+ Grade (CGPA 2.62)

Certificate Course in Accounting and Taxation

In the academic year 2020-21, our college introduced a new certificate course known as "Certificate Course in Accounting and Taxation," spanning a duration of six months. This course received approval from the UGC and is sponsored by the National Skill Qualification Framework (NSQF) under the Central Government. The primary objective of this course is to enhance the students' skill sets for tasks at the regional and local levels.

Given the significance of accounting and taxation in the context of rural areas, particularly in Yeola City, where a substantial portion of our students hail from, the college initiated this course within its commerce faculty. The emphasis on the local scenario prompted the college to seek approval from the NSQF for this endeavor. The course aligns with the cultural context and fulfills the requirements set by the NSQF.

The course is led by Prof. Dr. Sanap and Prof. Shelar, who serve as its coordinators. To develop the syllabus and course structure, the college established a board of studies comprising five faculty members. The teaching team consists of Prof. Bale, Prof. Patil, Prof. Sonawane M.S, and Prof. Shelar B.L. The course attracted 25 students in its inaugural academic year of 2021-2022 and 26 students in the subsequent year, 2022-2023. Notably, the results have been exceptional, with a 100% success rate.

The examination format for the course includes both semester assessments and projects. The semester evaluation is divided into a 40-60 ratio. Prof. Shelar, who heads the Department of Commerce, oversees the semester examinations, oral assessments, practical tasks, and projects, ensuring timely and comprehensive evaluations. Throughout the course duration, students receive guidance from Principal Dr. Bahusaheb Game.

To provide practical exposure, students participated in field visits, and they were guided by Mr. Soni from Yeola CA Sony to enhance their understanding of accounting and taxation concepts. This certificate course, approved by the UGC and NSQF, serves as a valuable addition to our college's offerings, empowering students with vital skills for regional and local work environments.
